**Dalhousie University’s School of Public Administration and the Centre for Advanced Management Education, in partnership with the Canadian Evaluation Society-Nova Scotia Chapter, invite you to attend a presentation of student issue papers.**

The students of the program evaluation course in the Master of Public Administration (Management) program will present their issue papers on August 13<sup>th</sup>. There will be five panel presentations on topics such as:

- Approaches to Evaluation
- Defining Success in Evaluation Plans
- Defining and Working with Causality
- Performance Measurement and Evaluation
- Building an Evaluation Culture

Following the presentations you are invited to continue the discussion with presenters at a reception in the students’ honour.

In the past this session has been deemed a wonderful venue for sparking discussion on evaluation issues and concerns. We encourage CES-NS members to participate by coming for all or a portion of the session and welcome anyone who has an interest in evaluation to drop by.

We do ask that you register so we can prepare for the reception.

**We look forward to seeing you on August 13th!**
